WORK EXPERIENCE

Express • Columbus, Ohio • 08/2021 - 08/2023

Associate E Commerce Engineer

- After a 3-month contract, I was hired on full-time, continuing front end web development with React. Collaborated on a cross-functional team, closely engaging with Product, Scrum, DevOps, QA, UI/UX Design, Android, and iOS.
- Contributed to the successful integration of the 'Save for Later' feature for the bag page, increasing conversion rates.
- Successfully implemented a redesign of Bag and Checkout pages, resulting in enhanced user experience and increased conversion rates.
- Revamped Product List & Search pages, expanding the grid & introducing new components for improved user experience, engagement, and control.
- Enhanced checkout with 'Tender Type Promotions' feature, allowing for PLCC and other tender type specific discounts, boosting conversions and retention rates.

Contract - React Engineer

- Identified & resolved critical site issues, debugging for a seamless user experience. Maintaining code hygiene, enhancing functionality and performance in a large React code base with a mix of modern and legacy code.
- Contributed to the company's proprietary, reusable front-end UI component library.
- Perform daily code reviews to ensure we meet business goals without compromising quality.

V School • 01/2021 - 04/2021

Teaching Assistant

- Conducted bi-weekly coding workshops, consistently delivering instructive and engaging lessons.
- Consistently provided daily assistance to bootcamp students, ensuring their understanding of coding concepts and assignments in a 3-month period.
- Practice agile methodologies with students, such as conducting daily standup meetings, to prepare them for working on an agile team.
